

10 April 1970

Dear Ray,

Subject: Proposal For Technical/Consultive Services to Improve
Production Methods at Customer's Facility

The subject proposal is submitted herewith for a Time
and Material Contract with the intent of conducting a
program for FY71 the same as is presently being conduc-
ted for FY70 under Contract [redacted]

25X1

RRW:vg

R.R.W.
R. R. W.

25X1

25X1 *Checked this out with [redacted] Since [redacted] is being closed out at end of FY 70, there is no R&D money available for such a contract - therefore, they, RD/PSG will pick it up with operational funds, RRS.*

Declass Review by NGA.

PROPOSAL FOR TECHNICAL/CONSULTIVE SERVICES TO IMPROVE
PRODUCTION METHODS AT CUSTOMER FACILITY

A. Services To Be Performed

1. Conduct studies and experimental investigations of a photographic nature for improving quality, increasing efficiency, coordinating production methods or developing new techniques for use at the customer's facility.
2. Provide technical and/or consultive services at the request of the customer.
3. Prepare photographic samples which illustrate or demonstrate improvement or changes in technology.
4. Provide information on available photographic processes which assist the customer in improving their capability.
5. Each area of consultation and/or service will proceed after mutual agreement is reached between the technical monitors for the customer and the contractor.

B. Material

Film and chemicals used in performance of this contract will be furnished at the established fixed price for Government customers.

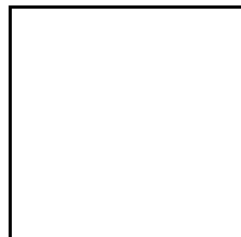

C. Reports

Informal reports to be submitted when deemed necessary with a final report to be submitted at the end of the fiscal year.

D. Payment

1. For each direct labor hour expended under the categories listed below, the contractor will be paid the appropriate hourly rates specified opposite thereof:

Engineer 0
Engineer 1
Engineer 2
Engineer 3

25X1

2. Travel and subsistence will be reimbursed at total cost plus G and A expense of 7.6 percent of total cost.
3. The hourly rates and G and A rate stated above shall be fixed for the period 1 July 1970 through 30 June 1971.

E. Period of Performance

1 July 1970 through 30 June 1971

F. Company Sponsored Research

The following clause shall be incorporated in any contract resulting from this proposal:

25X1 [] has and is continuing at its own expense a program of research and development in fields of thermo, electro, and photosensitive materials, including materials, methods and apparatus for their manufacture, processing and use. While the result of such programs as pertinent to the field of this contract may be applied [] to the work done under the contract, nothing in this contract shall be construed as requiring the disclosure of invention data or other information resulting from such independent programs relative to the composition of such material or their manufacture. The terms "subject invention" and "subject data" as used in this contract are not to include inventions or data resulting from such independent programs, and no money shall be withheld for failure to report as subject inventions or subject data any invention or data resulting from such independent programs. It is especially understood that as to sensitive materials this contract will not encompass and will not be extended to encompass research or development relative to the composition of thermo, electro, or photosensitive material or of materials for processing such sensitive materials or relative to method or apparatus of manufacturing such materials."
